SPECIALLY DESIGNED COURSES

Universidad Adolfo Ibáñez, campus Viña del Mar, offers courses taught in English and also Spanish as a foreign language classes, specially designed for international students.

The courses that are taught in English include subjects that match to what is taught in the second or the third undergraduate year, such as pointed out by the first code number that represents them (e.g. HISP 360).

In these courses the international students have the opportunity to share the class with students who come from all over the world and even with some Chilean students that may have the chance to enroll into some of them.

The specially designed courses for our international students offer in general a total of 3 credits per class. A number of six classes (18 credits) corresponds to a full semester academic load equal to 30 ECTS credits.

For the specially designed courses the semester begins in March (Spring) and August (Fall), and ends in June (Spring) and November (Fall).

UNDERGRADUATE COURSES WITH CHILEANS

At Universidad Adolfo Ibáñez our international students have the freedom to enroll in either our specially designed courses as well as in our regular courses with Chilean students (Pregrado courses).

Our university offers undergraduate courses in the areas of Business, Civil Engineering, Psychology, Law and Journalism.

The undergraduate courses have a longer semester in relation to our specially designed courses, ending their classes in July (Spring) and in December (Fall), and all of them are taught in Spanish.

Nevertheless, there are certain classes from Liberal Arts that may have a semester calendar equal to the specially designed courses. Besides, these courses do not belong to a specialized area, which means they are offered to the students who are not specializing in a Liberal Arts major. Due to this, these courses are focused in general contents with no much profoundness, taught by professors that are going to make the classes very understandable for the international students who can be able to speak Spanish with a B2-C1 level (according to the CEFR).

Some of these courses are: History of Chile, Universal History, Philosophy, Literature, Critical Thought, Written Expression, and Critical Reading.
